

We are different

TechSafe offers a complete cyber security package, from assessment, education and mobile device management. We deliver IT security for your business that is simple and easy to understand, at a price that any business can afford. Our focus is on simplicity and providing customers with IT security peace of mind

What our Customers are saying

- “The assessment is like a vaccination”
- “A small price to pay for peace of mind”.
- “We didn’t fully understand the risks we were facing”
- “Something all small businesses should do to stay healthy”

Why Partner

- Add value to customer relationships (stickiness)
- Major point of difference for partner
- Revenue opportunities increase ARPU
- Fully managed no overhead
- Great brand development opportunity

1

Expert advice

The tools, knowledge and information & the best advice. Expertise and a report that will identify areas to improve.

2

Education

We will train the business team on the latest top 10 cyber threats to help protect their business with Best Practice IT security.

3

Remediation

An objective, impartial look at the IT security posture. Backed with SME’s that can remedy common problems

4

People and process

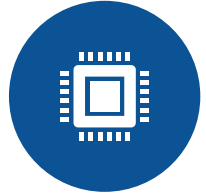

Staff behaviour is a major source of cyber risk. We provide tools and resources to mitigate the risks staff introduce to businesses

5

Certification

The certificate demonstrates your commitment to cyber security and shows that your business presents a minimized risk of perpetuating threats to other businesses

The Business of Cyber Security
